

Introducing

The Superior Performance

professional range of industrial care products

CLEANS | SHINES | PROTECTS

THE TOTAL CARE THAT OUTSHINES

VISION
INNOVATION
TECHNOLOGY

Welcome to Aerolub Speciality India Pvt. Ltd.

Aerolub is dedicated to providing top-tier aerosol products and advanced lubrication solutions tailored to a wide range of industrial applications.

Our unwavering commitment to innovation, superior quality, and exceptional customer service ensures that your operations remain efficient and effective.

Discover our extensive range of aerosols and lubricants designed to meet your specific needs and elevate your industrial performance.

VISION

OUR PRODUCTS

SERVING YOU WITH WORLD OF CHOICE

Aerolub - Your Partner in Success

Aerolub Specialities was conceived with a singular ambition: to illuminate the future of industrial lubrication. Our name, derived from the concept of aerospace lubrication, reflects our aspiration to reach for the skies, delivering cutting-edge solutions that drive the industries of tomorrow..

Our team of seasoned professionals and bright young minds have worked tirelessly to develop these Product Range that not only meets but exceeds industry standards.

Our state-of-the-art manufacturing facility is a testament to our commitment to quality. Equipped with advanced machinery and staffed by skilled technicians, it enables us to produce lubricants that are consistent, reliable, and tailored to the specific needs of our clients. We adhere to the highest standards of safety and environmental stewardship, ensuring that our operations are as sustainable as our products.

In these past six months, we have also focussed on building robust relationships with our stakeholders. We believe that collaboration and partnership are key to driving innovation and achieving mutual success. Our clients, suppliers, and employees are an integral part of our journey. We actively seek feedback and continuously strive to improve our offerings, ensuring that we remain responsive to the evolving needs of the market.

One of our proudest achievements to date is the development of our flagship product line, which includes high-performance lubricants designed for a range of industrial applications. These products have been rigorously tested under the most demanding conditions and have consistently demonstrated exceptional results. They offer enhanced efficiency, reduced wear and tear, and extended equipment life, translating into significant cost savings for our clients.

As we look to the future, we are filled with optimism and excitement. The industrial lubrication sector is on the cusp of transformation, and Aerolub Specialities is positioned to be at the forefront of this change. We are continuously exploring new frontiers, leveraging the power of digitalization and smart technologies to drive innovation. Our goal is to become a global leader in industrial lubrication, known for our pioneering spirit and unwavering dedication to quality.

Your trust and belief in Aerolub Specialities inspire us to aim higher and work harder. Together, we will illuminate the future of industrial lubrication, creating a brighter, more sustainable tomorrow for all.

Thank you

AERO LUB

SERVING YOU WITH WORLD OF CHOICE

MRO (Maintenance, Repair, and Operations):

Products and tools used to maintain and repair equipment and facilities.

Corrosion Inhibitors: Chemicals or coatings applied to surfaces to prevent or slow down the deterioration caused by rust/corrosion.

Mould Maintenance: Products designed to clean, protect, and maintain moulds used in manufacturing processes, ensuring their longevity and optimal performance.

Electric Maintenance & Insulation: Materials and products used for the upkeep of electrical systems and for insulating electrical components to prevent short circuits and other issues.

Cleaners & Degreasers: Solutions used to remove dirt, grease, and contaminants from surfaces and equipment, improving performance and longevity.

Welding Spatter Release & DPT (Dye Penetrant Testing):

Products used to prevent welding spatter from sticking to surfaces and to detect surface cracks or defects through a dye penetrant process.

Anti-Friction Coatings: Coatings applied to reduce friction between surfaces, enhancing the efficiency and lifespan of moving parts.

Automotive Care Products: Products designed to clean, protect, and maintain vehicles, including waxes, polishes, and interior cleaners

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Multi Purpose Lubricants and Penetrants

MRO 40

Multi Purpose
SPRAY

FEATURES

Multi-Purpose thin, non-drying protective oily film effectively lubrication for moving parts as tuners, micro switches, power tools, automation equipment, locks, etc. Rust Penetration, Moisture Displacement, Corrosion Protection, Cleaner & Prevention.

Pack Size Available

85 ml

165 ml

250 ml

400 ml

MRO-50 PRO

Protective Oily
Lubricating Spray

FEATURES

Highly Effective Multi-Purpose thin, non-drying protective oily film effectively lubrication.

Pack Size Available

400 ml

- Contains safe non-flammable CO2 propellant & 360° Valve.
- Works at High temperature Area.

PEN No.1

Fast-Acting

FEATURES

A Fast-acting industrial grade lubricant, rust penetrant and seal out further moisture and corrosion.

Pack Size Available

400 ml

- Low surface tension formula rapidly attacks rust to free seized/frozen components.

PEN PRO

Super fast Penetrant

FEATURES

A Fast acting industrial grade lubricant, with multifunctional formula

Pack Size Available

400 ml

- Rapidly penetrates minute cracks • Leaves a thin, long lasting film
- Cleans & removes oils & greases • Provides greaseless, non-staining protection
- Contains Non-flammable CO2 propellant & 360° Valve

White Lithium
Grease Spray

FEATURES

Lubricating paste spray designed to reduce friction between load-bearing moving metal surfaces and/or the combination of metal and plastic surfaces.

Pack Size Available

400 ml

High-Temperature
Moly Lube Spray

FEATURES

Suspension of micro fine molybdenum disulfide solid film lubricant, extreme pressure additives and corrosion inhibitors in a special lubricating oil carrier. It deposits a thin, non-drying film of MoS2 onto the surface to form a low friction & wear reducing shield that eliminates metal-to-metal contact & increases wear life

Pack Size Available

400 ml

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Multi Purpose Lubricants and Penetrants

Silicone Lube Spray

FEATURES

Extreme pressure, heavy-duty, silicone based dry film lubricant for use as a clean, non-staining, non-contaminating lubricant in paper and textile processing units on machine equipment such as knives, scissors, punches, chains, conveyors and other material handling equipment.

Pack Size Available

400 ml

Dry Lube Spray
Graphite Fortified

FEATURES

Lubrication of all sliding metal surfaces to reduce wear, friction and prevent cold-welding of surfaces such as for shafts, bushes, splined shafts, pumps, valves, threaded spindles, toothed gears, worm gears, transmission gears, lead screws, machine tool guides, pumps, flanges, anti-friction bearings, ball & roller bearings, bolts and pulleys which Prevents seizure, scoring, galling, fretting corrosion and stick slip thus reduces press fitting force & makes assembly easier and non-destructive or conditions

Pack Size Available

400 ml

Gel Lube Spray

FEATURES

No-Drip Formula, longer-lasting lubrication designed for superior protection that resists water and displaces moisture to prevent rust for up to one year. Withstands temperature ranges from -100°F to 500°F.

Pack Size Available

400 ml

Belt Dress 201 Spray

Synthetic, Non-Staining Agent

FEATURES

It is a non-staining, light tack, water resistant, synthetic lubricant cum belt conditioning treatment for improving grip page and preventing belt slippage for all flat, round and V-belts

Pack Size Available

400 ml

- Eliminates belt squeaking or squealing noises
- Provides for better operating efficiency
- Prevents hardening, glazing and premature cracking

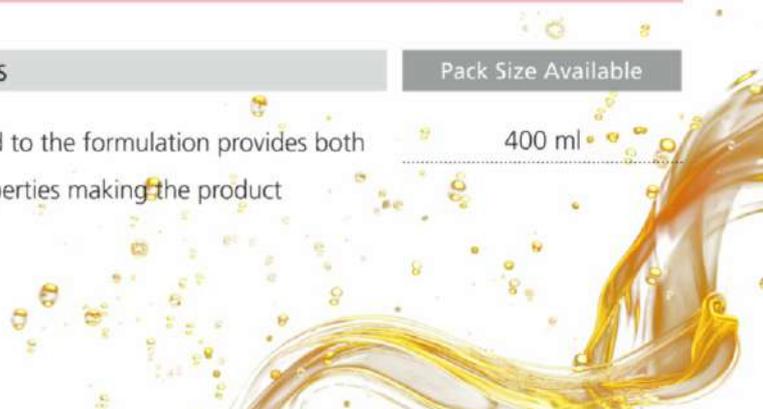

Open-Gear / Wire
Rope Lube Spray

FEATURES

A specially selected petroleum solvent added to the formulation provides both enhanced de-watering and penetration properties making the product particularly suitable for use on wet ropes.

Pack Size Available

400 ml

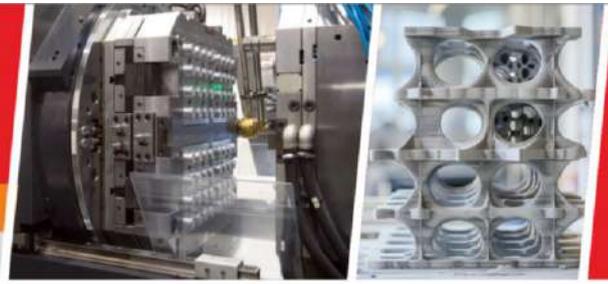

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Aerosols- For all Mould Maintenance

MR 501
Mould Release Spray

FEATURES

A heavy-duty silicone-based mould release agent formulated to provide maximum releases. Designed for use in injection moulding processes for rubber, polystyrenes, polyurethane foams, plastic, metal castings and elastomeric materials.

- Excellent for high temperatures
- Improves product surface finish
- Temperature Range upto +260°C

Pack Size Available

400 ml
BULK

MR 502
Mould Release Spray

Non-Silicone

FEATURES

Non-Silicone based Mould Release Specially formulated, paintable that is ideal for all types of plastics where decorating is required after moulding.

Recommended for use on compression moulding gaskets, toy and furniture manufacturing, urethanes, epoxy resins, polyesters, and polystyrenes.

- Excellent for parts requiring post-molding finishing
- Prevents sticking & increases life of dies & moulds
- Temperature Range Upto +250°C

Pack Size Available

400 ml
BULK

MR 503
Mould Degreaser/Cleaner

FEATURES

Mould Cleaner Spray is a non-flammable and non-conductive heavy-duty degreaser for cleaning moulds and dies. Removes grease, oil, dirt, dust, sludge

- Effectively cleans & removes grease, oil, dirt & dust
- Rapid cleaning & penetrating action

Pack Size Available

400 ml
BULK

MR 504
Mould Shield

Red

FEATURES

Mould shield is a thixotropic thin film-type corrosion inhibitor for providing short-term protection from rust and corrosion for up to 6 months indoors under normal storage conditions. Coverage 2-3 m²/can

Pack Size Available

400 ml
BULK

MR 505
Mould Protec

Wax Based

FEATURES

Mould Protec is Wax-based Corrosion Inhibitor for Precision moulds and dies stored for longer term upto 12-24 months

Pack Size Available

400 ml
BULK

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Aerosols-Welding Anti-Spatter Sprays & DPT

AS 882

Anti-spatter
SPRAY

FEATURES

Anti-spatter spray is a non-corrosive, non-staining anti-stick separation agent for preventing adherence of spatter to welding surfaces.

- Prevents burning of welding spatters on contact tips & work-pieces
- Provides long-lasting anti-adherent effect

Pack Size Available

400 ml

AS 884 Super

FEATURES

High-Quality Silicone based Anti-Spatter with more Resistance to Thermal and Mechanical Stability.

- Temperatures Ranges upto +260°C

Pack Size Available

400 ml

AS 886 AQUA

Anti-Spatter
Water-Base

FEATURES

Water-based, silicone-free, anti-stick separation agent for preventing adherence of spatter to welding surfaces.

- Diluting Ratio of 1:3 up to 1:10 depending on the application.
- No Odor & Non Flammable

Pack Size Available

400 ml

AS 888 CERA

Nano-Ceramic
based shield Spray

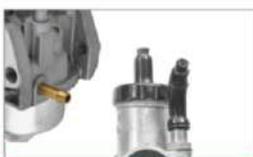

FEATURES

Special formula anti-adhesive nano-ceramic based shield. The strong consistency forms a resistant shield preventing spatter from adhering to metal surfaces. It provides extended period of welding time without cleaning of equipment.

- It can withstand temperatures up to 2730°F
- The product can be dispensed directly onto the welding torch. Protects jigs, fixtures, nozzles, tips, cabling, metal components

Pack Size Available

400 ml

AS 890

Tip Dip Gel Blue

FEATURES

The leading water-based gel. Reduces spatter buildup on nozzles and tips. Excellent cooling properties for longer tip and nozzle life. Can dip hot or cold, gel will not migrate into liner. Non-flashing and paintable.

Pack Size Available

250 ml

LEAKFIX

LEAKFIX
Penetrant (RD)

LEAKFIX Cleaner

LEAKFIX Developer

FEATURES

Liquid Dye Penetrant Test systems are designed for non-destructive inspection testing of surface.

- Detects surface defects up to 1micron width x 30micron depth on standard Ni-Cr Test panels.
- As per RDSO specifications M&C/NDT/105/2001 (Effective April 2001) and MIL-I-25135 / IS 3658 (1981) / ASME Code Section V.

Pack Size Available

400 ml

400 ml

400 ml

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Aerosols Corrosion Inhibitors

901 Galvakote Shine Spray

FEATURES

Brilliant metallic finish zinc and aluminum coating designed to provide true galvanic corrosion protection to metals and stop rusting. It repairs damaged hot dip galvanized surfaces.

Pack Size Available

400 ml

902 Zinckote Bright Spray

FEATURES

High-performance Bright zinc coating designed to provide true galvanic corrosion protection to metals and stop rusting. It air dries fast on application to leave a high-purity zinc film that is highly resistant to heat, water, corrosion and saline environments.

Pack Size Available

400 ml

- Confirms to requirements of ASTM A 780
- Dry Film Thickness (single coat) 15-20 microns

903 Alukote HT Spray

FEATURES

High heat resistant paint type coating based on aluminum pigments and a special binder system. It is resistant to surface temperatures reaching as high as 600°C.

Pack Size Available

400 ml

904 SSKote Spray

FEATURES

Specially designed coating containing stainless steel pigment to provide maximum corrosion resistance and protection.

Pack Size Available

400 ml

- Pigment 100% SS 316L
- Heat Resistance Approximately up to 300°C

ARMOUR 731 Spray
Rust Preventive

FEATURES

Soft waxy film type corrosion inhibitor for providing long-term indoor and outdoor surface protection to all metals and components for up to 2 years. It is highly resistant to humidity and salt spray and forms a protective shield against rust, moisture and corrosive influences. Its heavy-duty formulation provides both lubrication as well as corrosion protection to surfaces

Pack Size Available

400 ml

- Coverage 2-3 m² /can
- Salt Spray Test >720 hrs
- Film Thickness 2-3 mm

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Aerosols: Corrosion Inhibitors

ARMOUR 1000 Spray

Blue

FEATURES

Strong waxy film-type corrosion inhibitor for providing long-term, heavy-duty corrosion protection. Designed for Automotive cranks, engine assemblies, bearings, gears, valves, spindles, chains & hoists, wire ropes, steel cables, dies & molds, lathes, mechanical instruments, precision components.

- Film Thickness 2 mm
- Drying Time 10-15 min
- Salt Spray Test >1000 hrs

Pack Size Available

400 ml

ARMOUR 365 Spray

FEATURES

Thin non-drying lubricating film that penetrates deep into the minutest crevices to displace trapped moisture and leaves behind a protective film to seal out further moisture and corrosion.

- Provides long-term indoor protection to surfaces for up to 12 months
- Does not leave any sticky residues
- Safe, non-flammable CO2 propellant for aerosol
- Salt Spray Test >100hrs

Pack Size Available

400 ml

BULK

ARMOUR 180

FEATURES

Thin Oily Film corrosion inhibitor for providing short-term protection from rust and corrosion for up to 9 months indoors under normal storage conditions.

Safe for all metals.

- Salt Spray Test >80hrs

Pack Size Available

400 ml

BULK

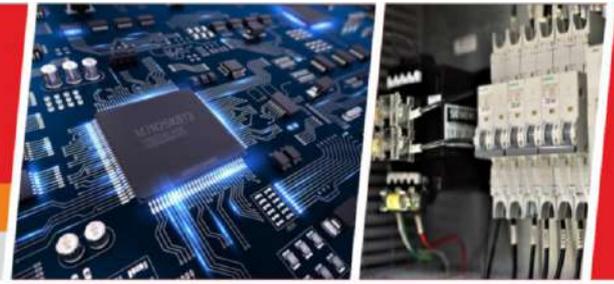

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Aerosols: Electrical Maintenance

**Electra ECO
(CO2) Spray**

FEATURES

High purity cleaner designed to clean electrical connections and improve performance with Low surface tension and superior wetting abilities. Prevents intermittent failure of equipment due to arcing, tracking, short circuits and corona discharges.

Pack Size Available

400 ml

**Electra Safety
Solvent (NF) Spray**

FEATURES

Non-flammable and non-conductive fast-acting heavy-duty cleaner for electrical and mechanical components. Quickly dislodges oil, grease, silicones and oxides from delicate machine parts.

- Dielectric Strength 37500 Volts

Pack Size Available

400 ml

Electra 201

Off-line contact cleaner

FEATURES

Fast penetrating and rapidly evaporating high purity cleaner suitable for 'off-line' cleaning applications with extended wear life of the equipment and reliability of performance and high dielectric strength.

Pack Size Available

400 ml

Electra Super 202

Red

FEATURES

Next-generation electronic contact cleaner that boasts the strongest cleaning performance. Non-flammable, fast evaporating, no residue, safe cleaner for electrical contacts especially involving sensitive plastics.

Pack Size Available

400 ml

Electra Multi 203

Off-line contact cleaner

FEATURES

Multifunctional Electrical Grade Lubricant, Cleaner, Moisture Displacer & Corrosion Inhibitor.

- Dielectric Strength of film 51000 volts
- Temperature Range Film +120°C

Pack Size Available

400 ml

Electra 205,

Gloss-coat
Acrylic Spray

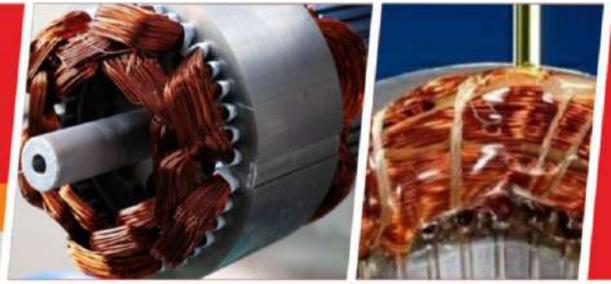

FEATURES

Fast air-drying, lightweight, clear, tough and flexible acrylic coating designed primarily to protect printed circuit boards and electrical / electronic equipment.

- Conforms to MIL-I-46058C
- Temperature Range °C -65 to +130
- Dielectric Constant 2.5 at 100KHz
- Dielectric Factor 25 kV/mm
- Dissipation Factor 1.7×10^{-2} at 100 kHz

Pack Size Available

400 ml

**Electra 206 / CL-F
Insulating Varnish**

Red

FEATURES

Red insulating varnish is a coating with exceptional insulating properties for electronic metal windings and coils with a temperature Class F (155°C) rating and high dielectric strength.

- Dielectric Strength 2100 volts/mil
- Very good adhesion
- Oil resistant to ASTM D 115

Pack Size Available

400 ml

**Electra 207 / CL-H
Anti-Track Varnish****FEATURES**

Dry to touch in 15 minutes after application. Fast air drying, flexible coating has excellent adhesion with a temperature Class H (180°C) rating and high dielectric strength.

- Dielectric Strength 2200 volts/mil
- Dry Film Thickness(DFT) 20-25 microns per coat

Pack Size Available

400 ml

**Red Insulating varnish**

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Aerosols: Anti-friction coatings

700 Dry-film
PTFE Coat

725 Dry-Film
PTFE Coat

FEATURES

Fast air drying formulation of polytetrafluoroethylene (PTFE) solid film lubricants offers ultra-high lubricity and exhibits excellent anti-stick properties. Provides complete protection against wear, friction and corrosion.

- Operating temperature range from -180°C to +250°C
- Quick bonding, air-drying and does not require any special treatment

Pack Size Available

400 ml

750 Dry-Film
Graphite Coat

775 Dry-Film
Graphite Coat

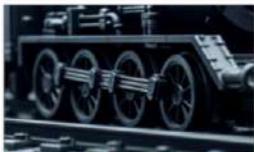

FEATURES

Excellent combination of micro fine graphite solid film lubricant and special anti-wear additives for conductive coating / sealant, preventing bimetallic corrosion, arcing, heat freezing and for improving low conductivity in electrical parts such as contactors, air circuit breakers, bus bars, isolator jaw breakers in 11KV and higher voltage systems.

- Withstands high temperatures up to +500°C

Pack Size Available

400 ml

800 Dry-Film
MOS2 Coat

825 Dry-film
MOS2 Coat Premium

FEATURES

Fast air drying mos2 dry film lubricant for heavy-duty, high-temperature thread compound to prevent seizure and corrosion and facilitate easy assembly and non-destructive disassembly

- Lubricates under pressures exceeding 500,000 psi.
- Unaffected by liquid oxygen, vacuum and suitable for use near radioactive areas Non-conductive
- Confirms to Military specifications MIL-M-7866
- Temperature range of -180°C to +450°C

Pack Size Available

400 ml

Aerosol Solutions for all your Industrial Needs

SPECIALITIES

MRO SPECIALITIES

Maintenance, Repair and Operations Solution

Multi Purpose Cleaners for Industrial & home appliances

Carbon Cleaner

FEATURES

Fast-acting blend of solvents for removal of carbon without excessive scraping or causing damage to the surfaces. It also cleans stubborn grease, paint, oil and varnish deposits.

Pack Size Available

400 ml

BULK

Paint Stripper

FEATURES

Heavy-duty, fast-acting blend of solvents for removal of paints, gaskets, adhesives, sealants, lacquers and varnishes without excessive scraping or causing damage to the surfaces.

Pack Size Available

400 ml

BULK

AQUACLEAN 100,
Water-based Cleaner

FEATURES

Multipurpose, non-abrasive, aqueous, biodegradable, cleaner / degreaser which can be further diluted with water Ratio upto 1:10.

Pack Size Available

400 ml

BULK

Component Cleaner

Citrus

FEATURES

Solvent-Based Cleaner For Removal Of Grease, Oil, Protective Coatings; Suited For Electrical & Mechanical Applications

Pack Size Available

400 ml

BULK

Solvent Cleaner
Metal Surface

FEATURES

Non-chlorinated, fast-drying cleaner for mechanical cleaning applications as an alternative for chlorinated solvents like CTC, 1,1,1 Trichloroethane.

Pack Size Available

400 ml

BULK

Heavy Duty
Solvent Cleaner

FEATURES

Non Flammable Heavy Duty Cleaner For Cleaning Electrical, Electromechanical & Mechanical Parts.

Pack Size Available

400 ml

BULK

Stainless Steel Cleaner

FEATURES

Stainless steel cleaner spray is a non-chlorinated, fast-drying degreaser for cleaning and protection of stainless steel (matt an polished) with pleasant citrus odor

Pack Size Available

400 ml

CFC-Free Commitment

At Aerolub Specialities India Private Limited, we are dedicated to environmental sustainability and innovation. Our entire product line is designed to be CFC-free, reflecting our commitment to reducing environmental impact and promoting eco-friendly practices. By eliminating chlorofluorocarbons (CFCs) from our formulations, we help protect the ozone layer and contribute to a healthier planet.

At Aerolub, quality is more than a promise; it is the foundation of our operations. We adhere to stringent quality control measures at every stage of production, from raw material selection to the final product. Our team of experts works tirelessly to ensure that our lubricants are reliable, efficient, and safe, providing our clients with the peace of mind they need to focus on their core operations.
